

Photon Energy Group is a group of companies with a shared mission: making clean energy, clean water and clean environments accessible to everyone.

Photon Energy provides comprehensive solutions that support the generation of clean energy and the integration of renewables into the electrical grid. **Photon Water** offers water treatment and management solutions, and **Photon Remediation** deploys advanced technology to remove contamination from all environments.

A publicly traded company operating in over 15 countries across two continents, we combine a global outlook with localised expertise.

Since our founding in 2008, we've expanded to a team of more than 350 employees around the world. And we're committed to fostering a culture of shared values and sense of purpose as we continue to grow.

Energy Trader

Are you ready to dive into the dynamic world of energy trading? We are currently recruiting an **Energy Trader** to join our **Origination & Trading** department.

Whether you are just starting out or have years of experience under your belt, we are open to both junior and senior candidates who are passionate about energy trading. If you are eager to explore this fast-paced environment, we would love to discuss this opportunity with you.

Key Responsibilities

- ▶ **Optimising RES power plant assets:** engaging in trading activities on the Futures and Spot Markets (Day-Ahead Market, Intraday) in Hungary, the Czech Republic and Poland
- ▶ **Daily trading operations:** participation in daily prop trading activities in physical energy markets
- ▶ **Schedule management:** nominating schedules to relevant Transmission System Operators
- ▶ **Cross-team collaboration:** working closely with analysis and product teams to ensure seamless operations
- ▶ **Trading strategy development:** building and refining trading strategies and models
- ▶ **System enhancement:** contributing to the development and automation of internal trading systems to improve efficiency (e.g., algo-trading)
- ▶ **Market insight:** staying updated on market trends and sharing insights with the team

Qualifications and Experience

- ▶ University degree in finance or economics, or a scientific or technical field
- ▶ Experience in trading (trading power commodities is a significant advantage)
- ▶ Communicative level of English for daily usage
- ▶ Good knowledge of MS Excel
- ▶ Coding skills are a plus
- ▶ Comfortable working in a fast-paced, collaborative environment
- ▶ Eager to learn, adaptive, and responsible
- ▶ Strong analytical and problem-solving abilities

Our Offer

- ▶ Full-time employment with the possibility of an immediate start
- ▶ An interesting job at a fast-growing global organisation in the promising fields of renewable energy and clean water technology
- ▶ Remuneration according to experience and skills
- ▶ Opportunity for professional growth
- ▶ Personal and professional development courses
- ▶ 25 days of vacation, 3 sick days, 1 CSR day
- ▶ Contribution to meal vouchers and MultiSport card
- ▶ Participation in an Employee Share Purchase Program after the first year of employment (company shares paid to a personal brokerage account as a bonus to your monthly salary)
- ▶ Working tools: laptop and mobile phone

If you are interested in the position and fulfil the above requirements, please apply online or send your CV to careers@photonenergy.com.
